Wholesaling and brokerage, **in one workspace**

01

Wholesaling

Prospecting → disposition → assigned → closing. Disposition room, buyer matching, ARV/MAO worksheet, assignment fees and distress tracking.

02

Brokerage

Listing agreement → active listing → showing → closing. Listings, inventory, showings, open houses, leases, commissions and CMA tools.

03

One workspace

AI assistant, automation engine, reporting and a shared lead/deal core across both modes — teams work the way their market works.

One platform, every module

01 · SIGN IN

Your entire workflow behind one login

A single, secure sign-in to the whole platform — leads, deals, buyers, inventory, reports and settings.

- TOTP two-factor authentication with recovery codes
- Optional SSO through plugins (Google / Azure / Okta)
- Per-tenant isolation from the very first request

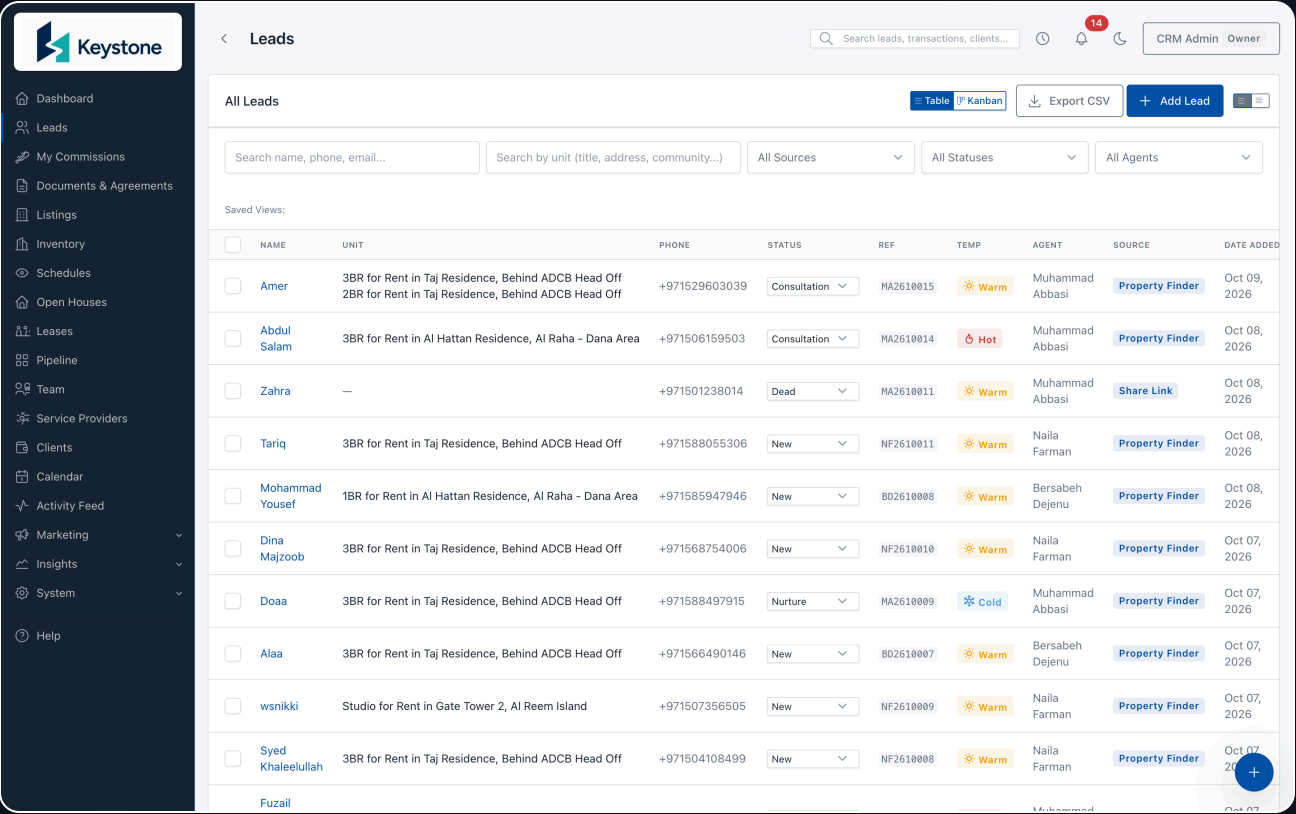

02 · COMMAND CENTER

Your business, at a glance

The dashboard surfaces the numbers that matter every morning — 27 leads this month, 77 in flight, and live activity across the team.

- Lead volume, active transactions and near-term pipeline
- Customizable widget layout with per-role defaults
- Charts and recent activity rendered instantly

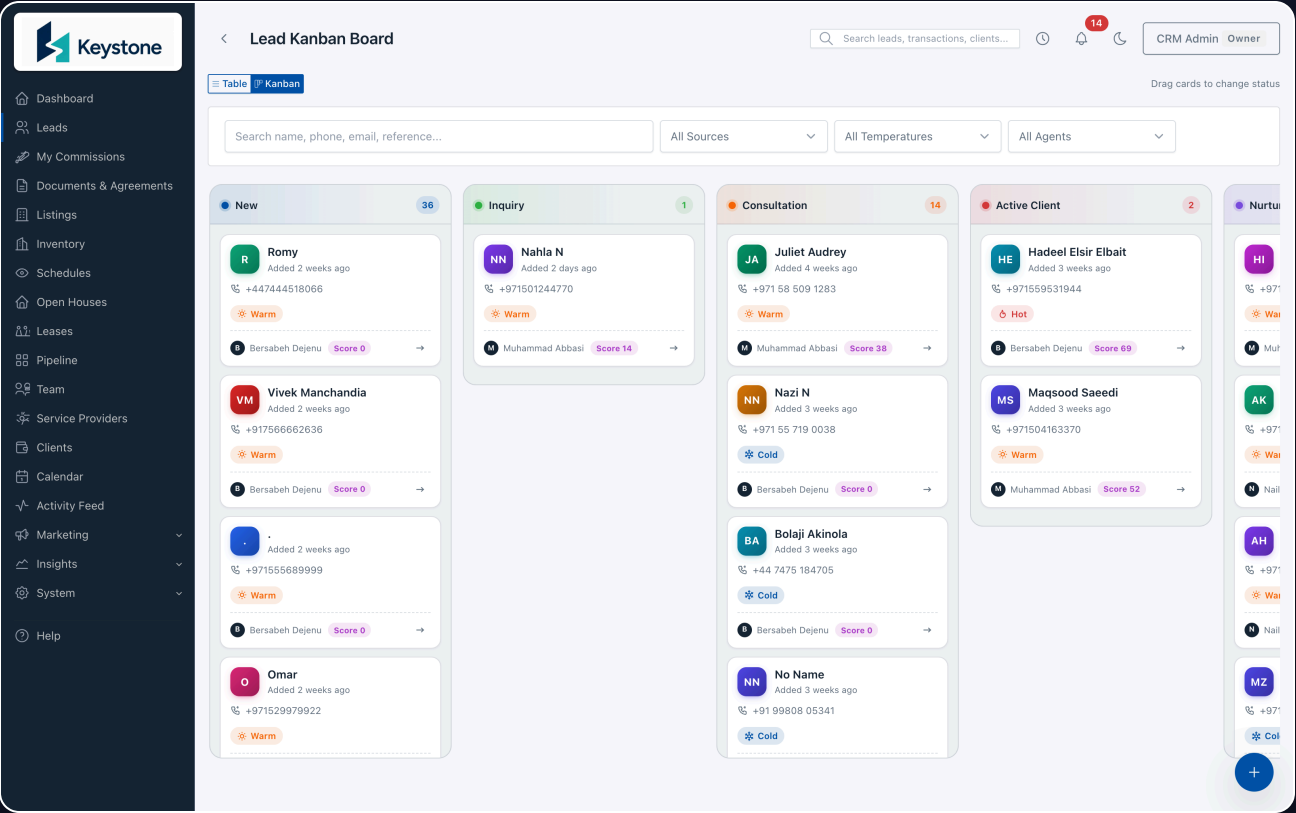

03 · LEAD DATABASE

A lead database you can actually work in

Every lead searchable, sortable and filterable by source, status, temperature and owner — with one-click export.

- DataTables with saved filter views per agent
- Bulk actions: reassign, change status, delete
- CSV import with AI column auto-mapping

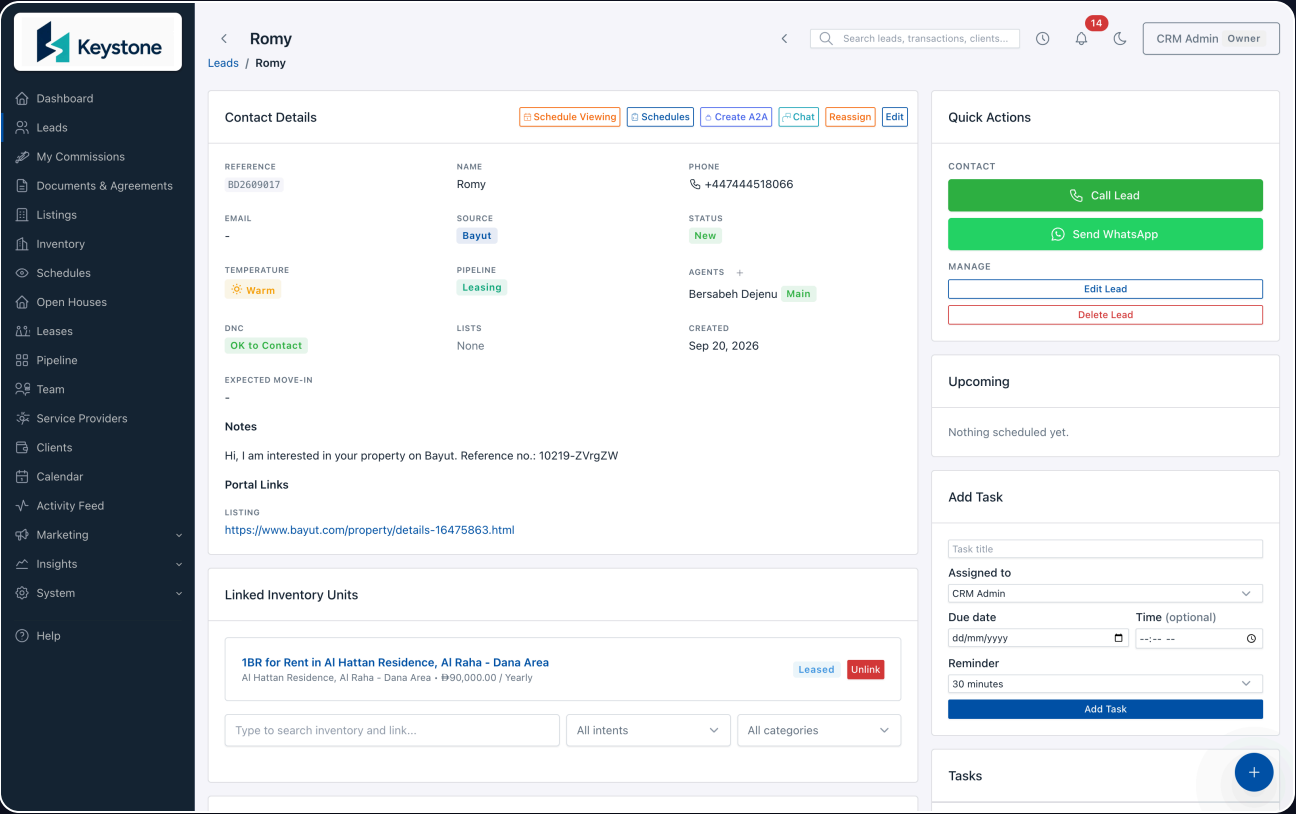

04 · LEAD PIPELINE

Move deals with drag & drop

A live Kanban board across your full pipeline — drop a lead into the next status and watch the whole funnel move.

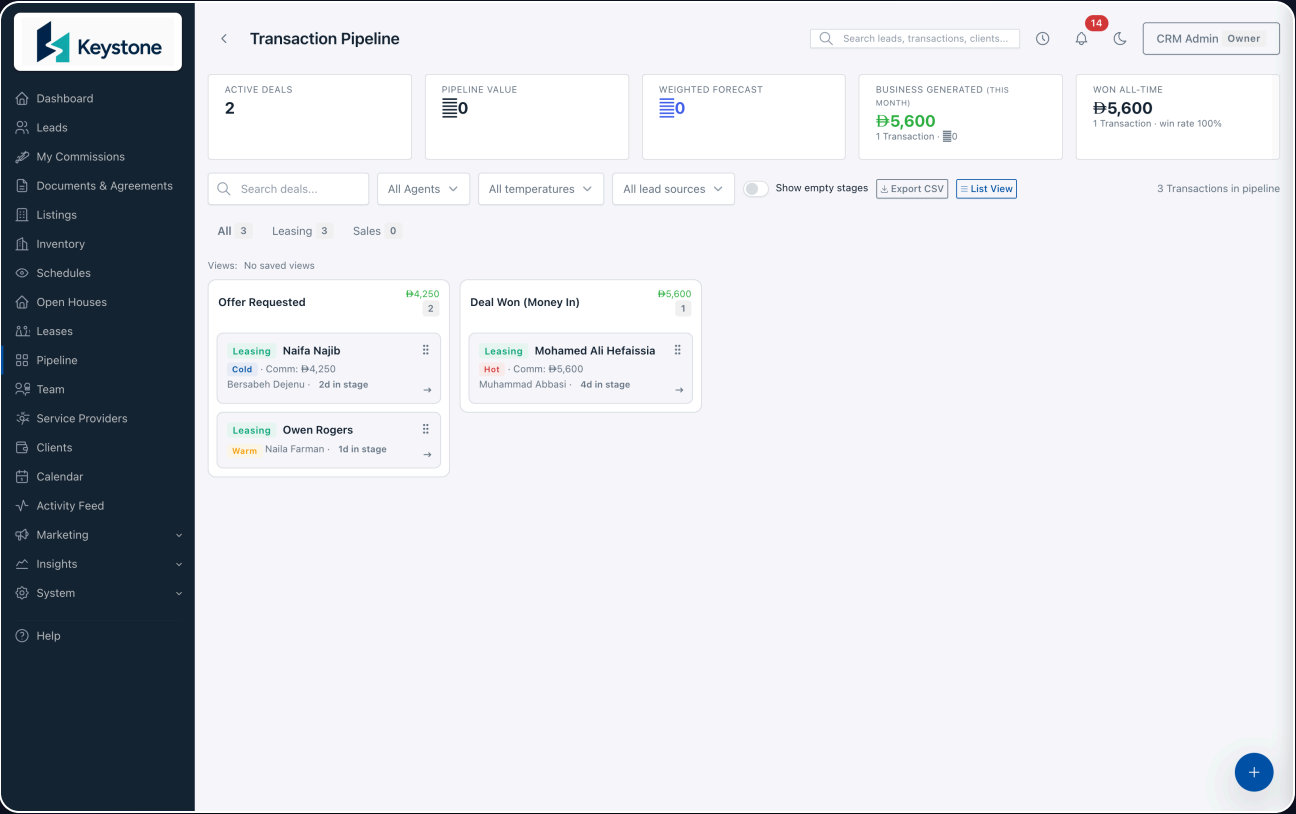

- 14 configurable status columns
- Cards show score, source, agent and urgency
- Quick-add right from the board

The full lead, one screen

Contact, score, source, photos and history around a single record — with the next action one click away.

- Call, Email and WhatsApp in one click
- Dual motivation scores: system and AI, side by side
- Full assignment and activity timeline

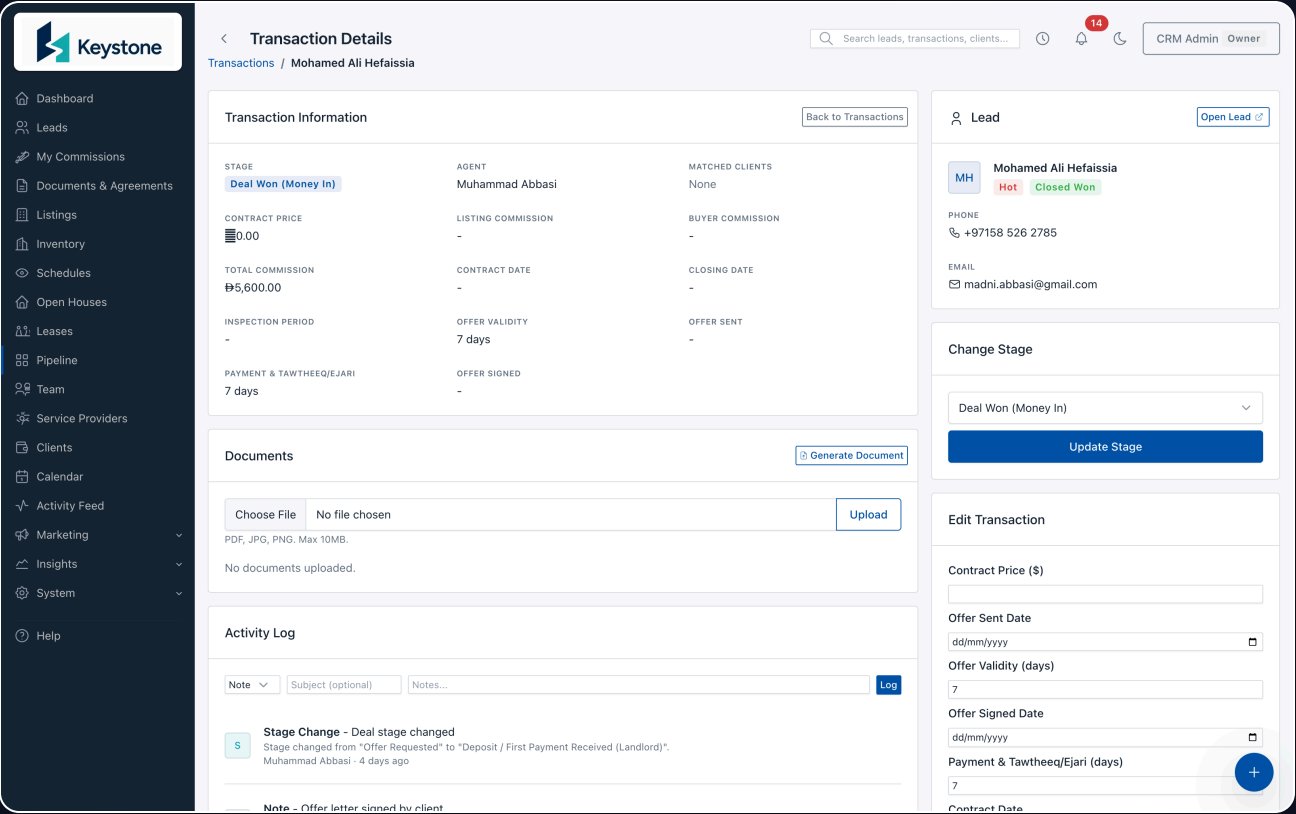

06 · DEAL PIPELINE

Every transaction, weighted and forecast

The deal board rolls value up per stage — active deals, pipeline value and weighted forecast for the whole team.

- Accordion stages with counts, totals and fees
- Native drag-and-drop between stages
- Due-diligence countdown with urgency alerts

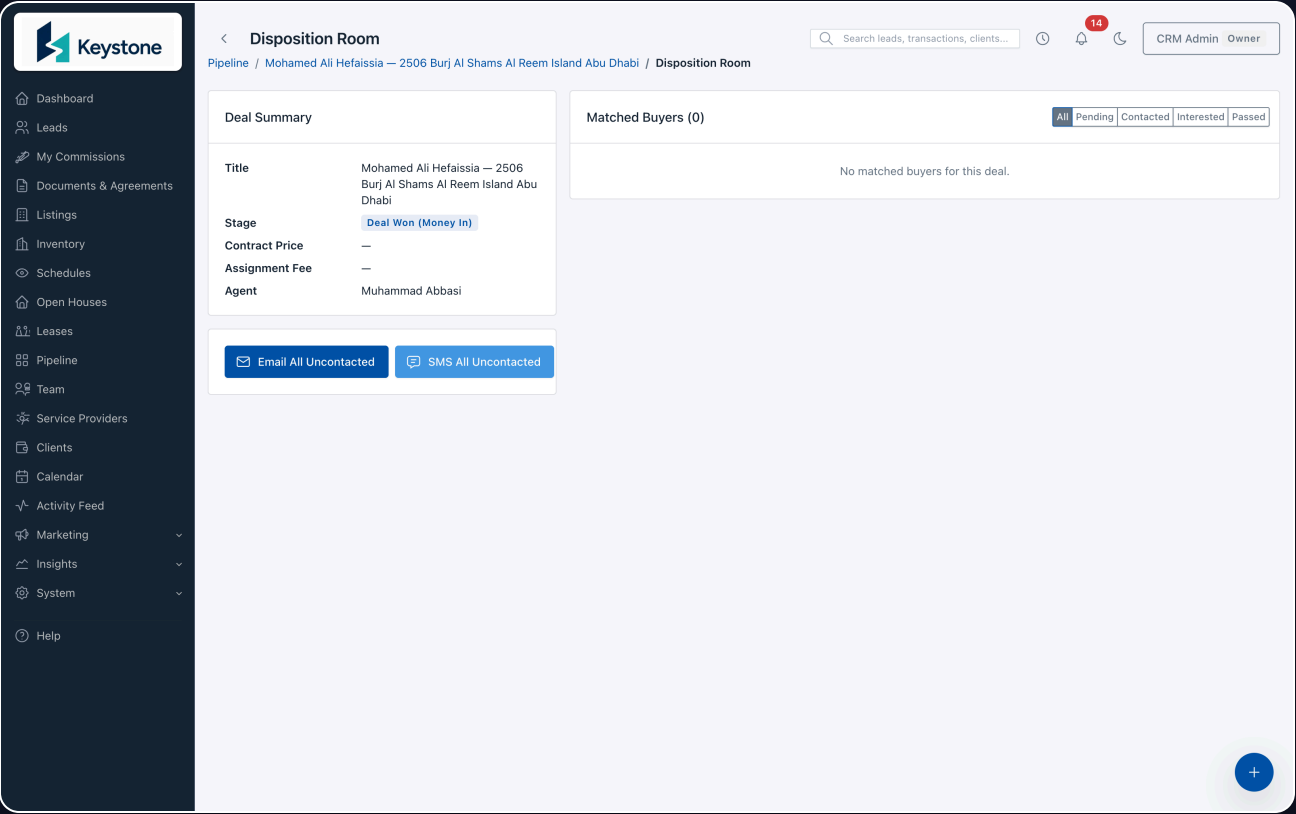

07 · DEAL ROOM

A transaction as a living room

Contracts, offers, documents, checklist and activity live on the deal — nothing scattered across emails and spreadsheets.

- Document uploads plus a generated-document flow
- Transaction checklist and offer management
- Every stage change logged automatically

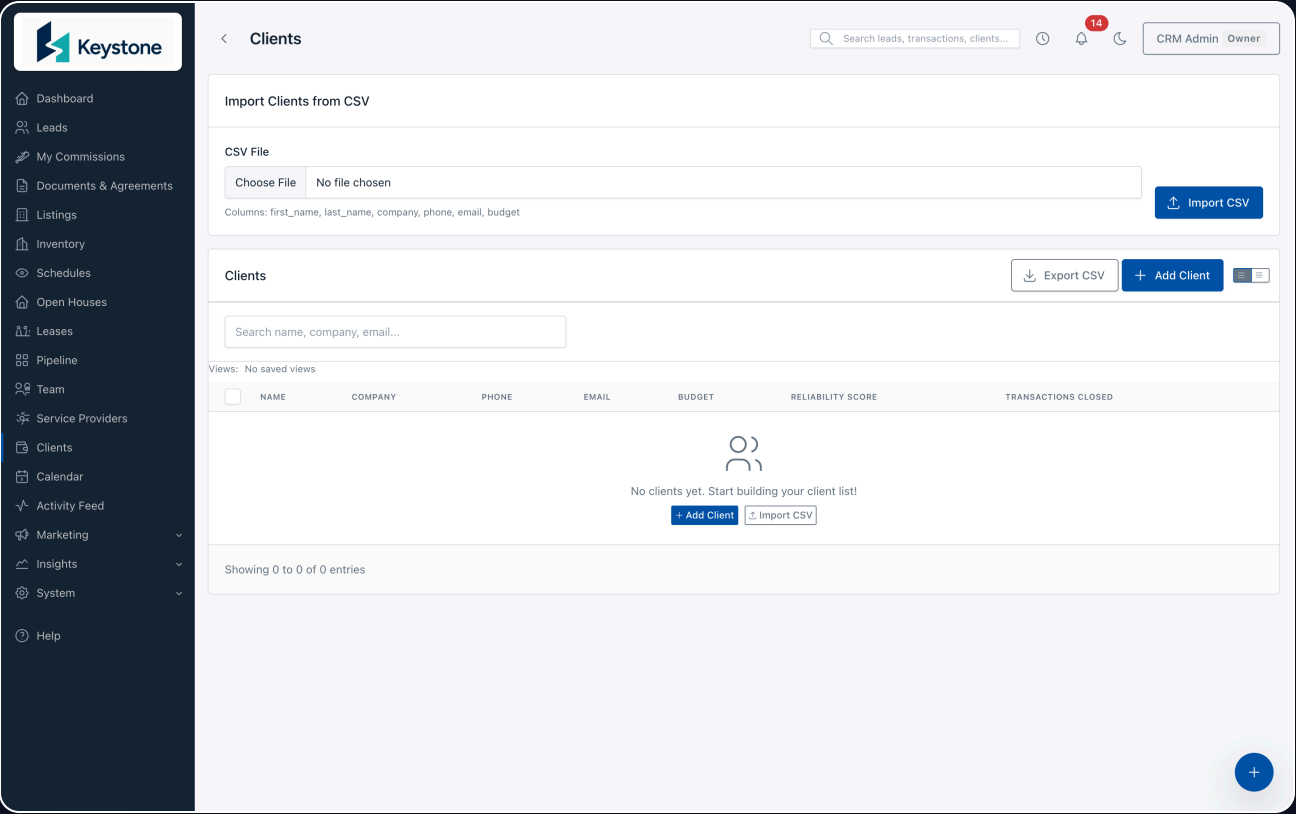

08 · DISPOSITION ROOM

Match buyers to deals, automatically

Wholesale deals get a disposition room — matched buyers, outreach status and next actions in one view.

- Match statuses: contacted, interested, passed
- Mass email / SMS outreach to matched buyers
- Auto-matching when a deal reaches Dispositions

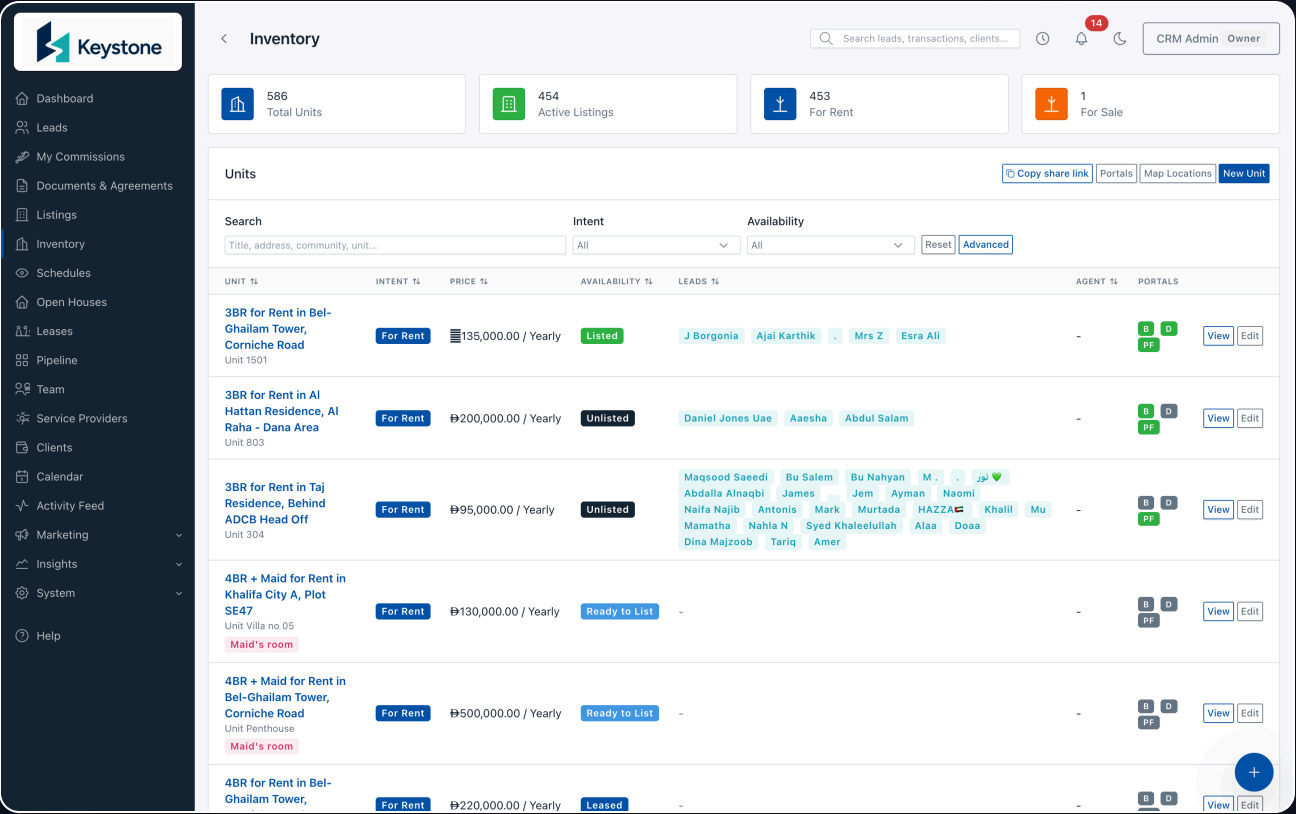

09 · BUYER DATABASE

Buyers with a reliability score

Manage client demand — proof of funds, criteria and track record — all scored so you know who actually closes.

- Reliability scoring and POF verification
- Structured criteria: property types, areas, price ranges
- Import / export and full transaction history

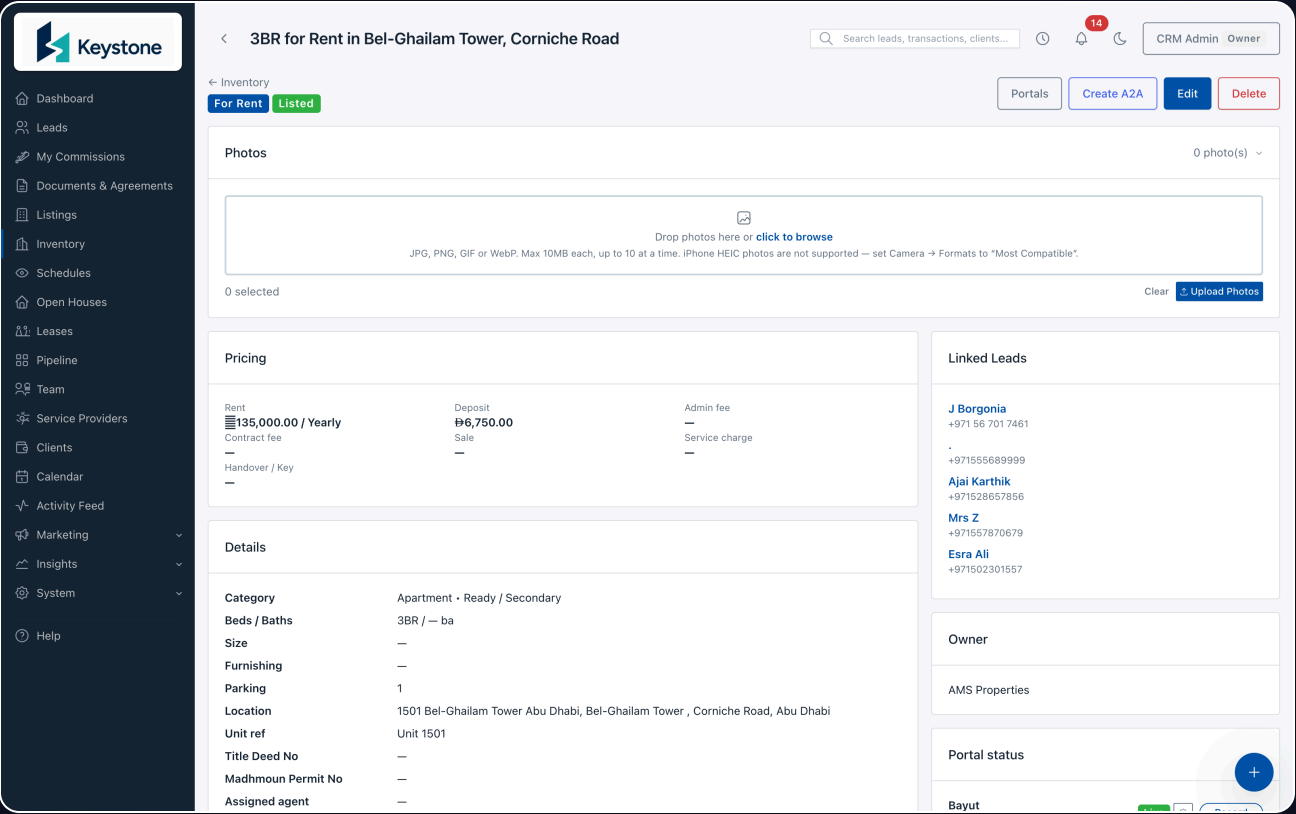

10 · INVENTORY

Hundreds of units, one live grid

586 units in the demo tenant — filter, schedule and push to portals with status tracked per unit.

- 454 active listings with type and price
- Filter, search and bulk export
- Portal-ready publishing: Bayut, Dubizzle, Property Finder

11 · UNIT 360

Every unit, front to back

A complete record per unit — photos, beds/baths, price and portal status — ready to list the moment you are.

- Galleries with reorder and primary-photo control
- List price and status tracking per unit
- Per-portal publish status at a glance

12 · LISTINGS & MANDATES

From ready-to-list to live

The listings pipeline separates what's listed, what's live on a portal, and what's ready to publish next.

- Live-on-portal vs ready-to-list at a glance
- Average rent and listing volume summary
- Readiness checklist before anything goes live

13 · CALENDAR

The week, color-coded

Meetings, viewings, calls and tasks on one calendar — click straight through to the related lead.

- Color-coded event types per team
- iCal feed sync and Google / Microsoft import
- Per-user calendar connections

15 · ACTIVITY FEED

Every touchpoint, audited

The whole team's calls, SMS, emails, WhatsApp and meetings in one searchable inbox.

- Filter by type, agent, date and entity
- Actionable directly from the feed
- DNC flags enforced on every outreach

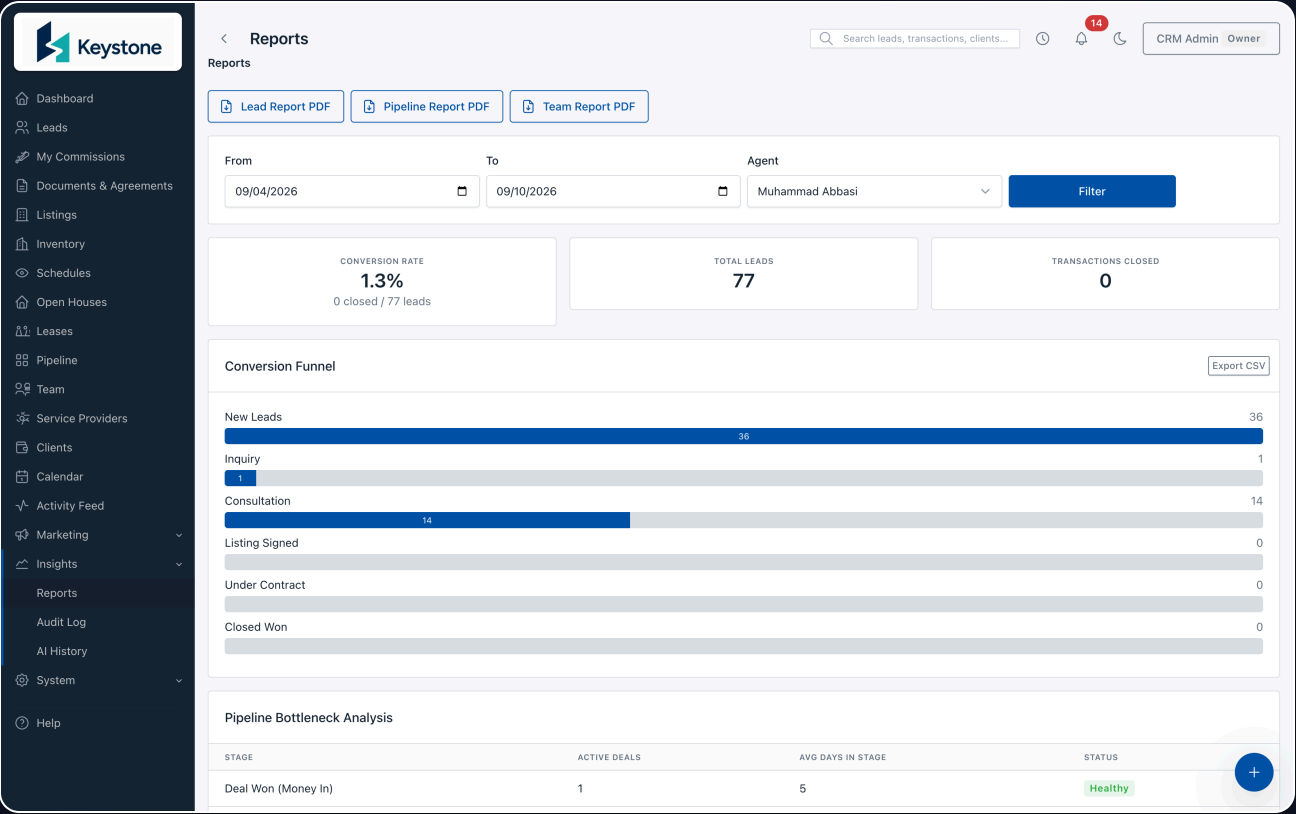

16 · A2A CONTRACTS

Co-broke agreements, tracked

Agent-to-agent commission-share contracts — parties, linked lead, share split, and sent/signed status.

- Create, print and Save-as-PDF built in
- Track sent and signed per contract
- Void and attach contracts to deals

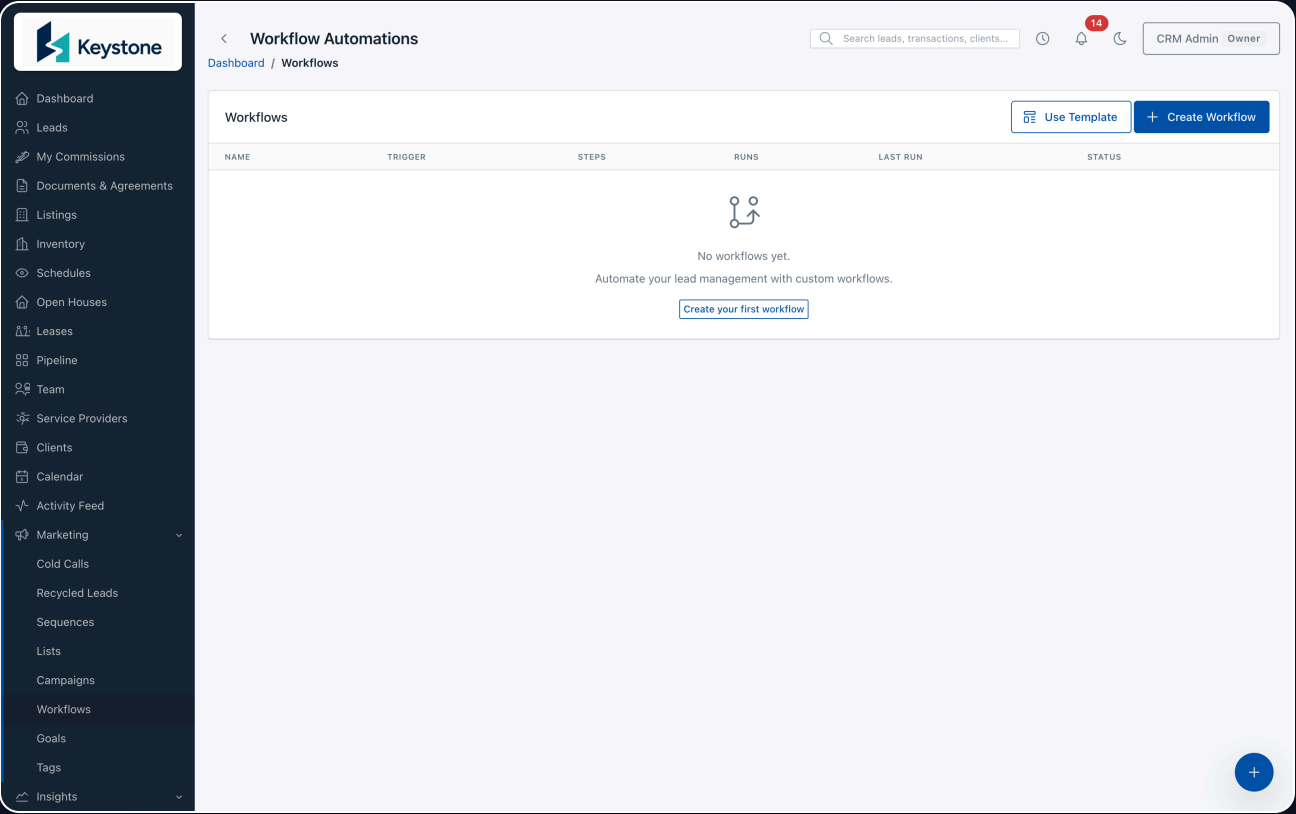

17 · REPORTS

Reporting that sells itself

Lead, pipeline and team reports as printable PDFs or CSV — plus funnel, leaderboard and ROI widgets.

- PDF reports: leads, pipeline, team
- Conversion funnel and team leaderboard
- Lead-source ROI with cost tracking

18 · AUTOMATION

Automations that follow up for you

Event-triggered workflows with steps, delays and full run logs — plus sequences, campaigns and webhooks.

- Workflow builder with templates and run logs
- Drip sequences over SMS, email, call, mail
- Outbound webhooks, HMAC-signed with retries

19 · TEAM & ROLES

A team that reports up, not sideways

5 members, 63 open leads and 80 activities in 7 days — managers see the whole pipeline in one place.

- Manager hierarchy and team progress
- Custom roles with 33 permissions
- Safe member deletion with data reassignment

20 · SETTINGS

Deep control, per tenant

Roles, integrations, business mode, portals, email, security and storage — every knob exposed.

- Roles & permissions center
- Portal integrations: Bayut, Dubizzle, Property Finder
- Languages, SMS, storage and backup management

An AI native to your pipeline — bring your own key

- **Draft follow-ups**
SMS, email, voicemail, call script, direct mail, notes, meeting prep — caller identity injected.

- **Deal analysis**
Risk assessment, opportunity score, concerns and recommended next actions.

- **Independent lead scoring**
A separate AI pass on motivation plus smart hot / warm / cold qualification.

- **Buyer outreach**
Emails tailored to each buyer's preferences, with match explanations.

- **Works across models**
OpenAI, Anthropic Claude, Google Gemini, Ollama (local) and any OpenAI-compatible endpoint.

- **Weekly digest**
KPI review, pipeline health, ARV/comps intelligence and listing marketing kits.

Follow-up that **never sleeps**

WORKFLOWS

Event-triggered engine

Steps, delays, reordering, manual triggers, pre-built templates and complete run logs.

SEQUENCES

Multi-channel drips

SMS, email, call, voicemail and direct mail steps with merge tags and enrollment widgets.

WEBHOOKS

Connect your stack

HMAC-signed events with retries and auto-disable — ready for Zapier, Make and n8n.

A portal for everyone **in the deal**

BUYER PORTAL

Public property showcase

Brandable pages with self-registration and interest capture — leads land straight in the pipeline.

SHARED INVENTORY

Curated links for clients

Agents share filtered unit lists; identity-verified viewing requests create leads automatically.

EMBEDDABLE WEBFORM

Lead capture anywhere

A branded web form for any site, with duplicate detection and source resolution.

Compliance and security built-in, not bolted on

- **DNC & TCPA enforcement**
System-wide do-not-contact list, bulk import, automatic blocking, timezone-based hours.

- **Two-factor authentication**
TOTP with recovery codes, admin-enforced for the team, per-user reset.

- **Full audit log**
Searchable, before/after values, CSV export — who changed what, when.

- **GDPR companion**
Data export and anonymized deletion for users and contacts.

- **Backups & safe updates**
One-command backups, pre-update snapshots and recovery points.

- **Multi-tenant isolation**
Global scoping on every query — tenants only ever see their own data.

Self-hosted, multilingual, **API-first**

Self-hosted & Docker-ready

Laravel 12 on MySQL/MariaDB, web installer and automatic updates.

7 languages + editor

English, Dutch, German, French, Spanish, Portuguese, Italian — add any via JSON.

REST API & OpenAPI

20+ endpoints with per-tenant key auth and interactive API docs.

Portal publishing

Bayut, Dubizzle and Property Finder listing push plus inbound lead feeds.

PWA, offline, dark mode

Installable, offline-capable and fully mobile-responsive.

Localized everywhere

38 currencies, 50+ timezones, metric/imperial, localized exports and prompts.

Ready to run your property business on **Keystone**?

- Wholesaling and brokerage in one workspace — leads, deals, buyers and commissions
- Portal publishing to Bayut, Dubizzle and Property Finder
